Professional Experience

Software Developer (Junior) - Brasil Digital Telecom

(March 2024 - Present)

- Collaborate with the development team to design and create new features and products in the company's proprietary ERP, using technologies such as Laravel (PHP), HTML, CSS, JavaScript, MySQL, and Git; Provide training for interns and junior assistants. Maintain the ERP servers and troubleshoot potential incidents and issues.

Notable Achievements:

- I built an API that connected external services with our ERP, allowing AI to automate customer service tasks. This cut the initial workload for our team by around 50%
- I created financial, operational, and management reports in various formats, making it easy to conduct quick and accurate audits of business data.
- I implemented Redis cache in critical application modules, cutting response times for data queries and page loads by 50% or more.
- I introduced the use of pull requests, which improved code reviews and collaboration among developers, and implemented screen prototyping with Figma, leading to a more user-centered design process.

Programming Assistant - Brasil Digital Telecom

(March 2023 - February 2024)

Programming Intern - Brasil Digital Telecom

(November 2022 - February 2023)

Skills

Programming Languages: PHP and Javascript

Frameworks: Laravel, Vue.js

Development Tools: Docker, Git, Visual Studio Code, Pipefy, Trello

Databases: MySQL and MongoDB

Operating Systems: Linux (WSL Ubuntu), Windows

Projects

MyERP - Enterprise Resource Planning

Simple ERP for employees management. Works good as a starting point to a more robust ERP.

Technologies: Vue.js + Typescript, TailwindCSS, Laravel, MySQL, Figma, Git, Docker

Link: https://github.com/thiagoolivier/my_erp

Swoole Websocket Server - Websocket Server

Websocket Server implemented with Swoole, which allows the use of coroutines and asynchronous tasks.

Technologies: Swoole, PHP, Composer

Link: <https://github.com/thiagoolivier/swoole-ws-server>

Portfólio - Personal Website

My personal website project. Used to demonstrate more detail about my professional skills.

Technologies: Vue.js, TailwindCSS, Git

Education

Software Engineering (Specialization)

On course (January 2024 - December 2024)

Estácio de Sá University

Software Engineering (Graduation)

Finished (August 2021 - December 2023)

Estácio de Sá University

Courses

UX Design Professional Certificate - Google

(Finished Jul 2023)

Database Structures and Management with MySQL - Meta

(Finished Jul 2023)
